

## Nicholas House Hosts Annual Volunteer Appreciation Event

April is National Volunteer month. Each year in April, individuals and organizations across the United States celebrate National Volunteer Month to honor the important impact volunteers have in our communities, and to encourage even more people to start volunteering. The week of April 7-13 is National Volunteer Appreciation Week.

During this special week, Nicholas House recognizes the dedication and support of volunteers that have served meals to families, participated in beautification activities, tutored children, provided valuable instruction and guidance as part of our adult education program, assisted with office work and more! Nicholas House celebrates the accomplishments and impact of volunteers during its annual Volunteer Appreciation Event. Held this year on April 13th, volunteers and their families enjoyed a special day of delicious food, live music, prizes and more! Thank you, Nicholas House volunteers for all that you do to help homeless families thrive!

## Did You Know?

The new tax law has increased the standard deduction so couples making more standard itemized deductions might not receive a benefit from their charitable giving. As a result, some financial advisors are recommending that their clients “bunch” their giving or make a large gift (that is some multiple of their typical annual gift to charity) and ask the charity to spread the donation over a multi-year period.
